Subject: Yerington OU-4a report status

Dave,

Due to unforeseen complications, the OU-4a data interpretation report for Yerington has required more time than expected to complete. Currently the team is evaluating what remaining steps are necessary to complete this document so that I can relay the new target date that you can expect to see this document. I hope to be able to communicate the new target date for submittal of this document in the next day or two. I apologize for this further delay.

Please let me know if you would like to discuss further.

Thanks,

-jack
